40 Years of Excellence

Darryl Bassani represents a lifetime of experience and involvement as a Motorcycle enthusiast as well as an exhaust systems manufacturer which started in 1969. Since that time Darryl has designed high performance exhaust systems for the car, truck, off-road, and motorcycle markets. His determination and passion for making quality performance pipes has made Bassani into a leader in the Exhaust manufacturing industry and Bassani Xhaust a household name amongst racers, car and motorcycle enthusiasts worldwide.

With over four decades focusing on maximum performance, Bassani has learned what works and what doesn't. The emphasis at Bassani is excellence in design, quality of materials, precision fit, and improved performance.

Bassani precision-designed exhaust systems are the easiest way to significantly improve power, performance, sound and fuel efficiency.

Our dedication has provided countless street and competition riders with unique header and muffler designs that have, and continue to out perform the competition.

Designed and Built by Bassani Xhaust

We at Bassani Xhaust take great pride in producing the finest motorcycle exhaust systems and accessory products available today. Each pipe is designed to give the rider honest increases in usable horsepower. We're not trying to impress the dyno. We are impressing those that ride and race with a Bassani system.

At our facility, all designing, prototyping and testing is done by Darryl Bassani. All components of systems are manufactured under one roof to assure quality control and coordination. Cones are rolled; heat shields fabricated; pipe bends made; and systems welded. We maintain a stock of all popular pipes to assure quick delivery. Bassani products are nationally advertised and renowned for quality and performance.

Made In The USA

★★★ **BASSANI EXHAUST SYSTEMS SINCE 1969**

BAGGER TRUE DUALS

BASSANI XHAUST MOTORCYCLE WARRANTY

Bassani motorcycle exhaust are warranted for 1 year from date of purchase for defects in workmanship and material defects. Bassani will determine if the parts will be replaced or repaired. Abuse, improper installation, or misuse are not covered by warranty.

Coating finishes including painted or plated surfaces are not covered by warranty including discoloration and rust.

Warranty returns must be accompanied by a return authorization number from Bassani Customer Service and any parts received without a RA number will be refused. Labor charges, freight fees, loss of use or damage to vehicles are not covered by warranty.

Proof of purchase is required on all warranty requests.
